**THE DRAGONTREE, A HOLISTIC DAY SPA, ANNOUNCES THE OPENING OF A NEW LOCATION
IN THE PORTLAND INTERNATIONAL AIRPORT**

(Portland, OR) January 19, 2010

The Dragontree Holistic Day Spa, located in NW Portland, announces the opening of the first spa in the Portland International Airport February 8. The spa is located on Concourse C by the Southwest Terminals. After an extensive interview and proposal process, The Dragontree was selected based on their established history of providing exceptional therapeutic services, commitment to being a sanctuary from the stresses of life, and dedication to reflecting Portland's values of ecological consciousness and sustainability practices.

The design is radically different from other airport services in that it is a beautiful, soothing and private refuge from the bright lights, sounds, and hectic pace of the airport. The extensive menu has options to accommodate all travelers' needs and schedules. There are private treatment rooms for massages, facials, and waxing as well as an ambient communal space with elevated couches for therapeutic foot baths, head, neck and shoulder massages, chair massages and a variety of foot treatments. Eventually the menu will also include manicures and pedicures. In addition to these services there is a carefully chosen selection of immune supporting vitamins and herbs, natural sleeping aids, organic body and skin care products, and tasteful gifts for the savvy traveler.

Appointments are primarily on a walk-in basis but reservations will also be happily accepted. For more information please visit www.thedragontreepdx.com or call 503.331.1131.
